Professional Summary

Full Stack Engineer with experience in designing, developing, and deploying scalable web applications. Skilled in front-end and back-end development, system architecture, API integration, and database management. Passionate about building efficient, user-friendly, and high-performance solutions while following modern software engineering best practices. Experienced in working across the complete software development lifecycle, from requirement analysis to deployment and maintenance..

Technical Skills

Programming Language: JavaScript, Python
Frontend: HTML, CSS, JavaScript (ES6+), React.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Mongoose, Redis
Authentication: JWT, Bcrypt
Tools: Git, GitHub, Postman

Experience

Sheryians Coding School (sheryians.com)

Full Stack Developer Intern

Jan 2026 – Mar 2026

Bhopal, Madhya Pradesh

- Developed a full-stack hiring platform using React.js, Next.js, Node.js, and REST APIs.
- Built candidate-side features including job listings, detailed job pages, and application workflow.
- Implemented dynamic filtering, search functionality, and conditional forms for improved user experience.
- Integrated backend APIs and optimized data fetching using React Query (TanStack Query).
- Developed responsive dashboards and managed CRUD operations with secure API integration.

Freelance Web Developer

Self-Employed

2025 – Present

Remote

- Developed and maintained highly responsive websites and scalable web applications.
- Worked extensively with React.js, JavaScript, Tailwind CSS, and third-party REST APIs.
- Successfully delivered diverse client projects in strict accordance with functional requirements and project deadlines.

Projects

Uber Clone | React.js, Node.js, MongoDB, Socket.io, Maps API, JWT

- Developed a full-stack ride-booking application with real-time location tracking and ride management.
- Implemented secure user and driver authentication and authorization workflows using JWT.
- Integrated Maps API for dynamic route visualization, geocoding, and location-based services.
- Built scalable REST APIs using Node.js and Express.js to handle seamless data communication.
- Managed application data using MongoDB and implemented real-time updates using Socket.io.
- GitHub Link: github.com/Honey58/uber-app

Lay's — Website | HTML, CSS, JavaScript, React, GitHub

- * Built a responsive website with modern UI and smooth user experience.
- * Optimized performance and mobile responsiveness.
- * Managed deployment and version control using GitHub.
- * Live Demo: lay-s.vercel.app

Education

Sage University

Bachelor of Technology in Computer Science

2024 – 2028

Bhopal, MP

Reema Vidya Mandir Higher Secondary School

Class 12 & 10 (Higher Secondary Education)

2021 – 2023

Bhopal, MP
